

Biography

Gary Hazel
Training Manager
The Injazat Institute (Ti²)

Gary Hazel is an experienced Training & Development Manager with more than 15 years of experience in training consultancy, design, development and delivery for a number of leading organizations.

He is currently the Training Manager of The Injazat Institute (Ti²), a business-oriented career development initiative of Injazat Data Systems, the leading IT and business process managed services provider in the UAE and the Middle East. He is responsible for the design and development of all Ti² Programs and Course Materials. His focus over the last 18 months has been to develop the Emiratisation strategy for Injazat and other Organizations in terms of Career Consultancy and Career Development Planning.

His previous role was to manage the Transformational Program for 2 years within Electronic Data Systems (EDS) to one of their premier clients, Department of Work & Pensions (DWP). The focus was to ensure that new processes and tools were delivered meeting client Service Level Agreements and gaining CMMI Level 3 accreditation.

Gary holds a degree in IT & Computing through the Open University and has completed the Certificate in Personal & Development (CIPD) at practitioner level for the Training & Development function.
