

PMP Certification Program

Overview

Project Management Professional (PMP®) is a certification that is only available for project managers with at least 3 years practical experience in the different areas of project management.

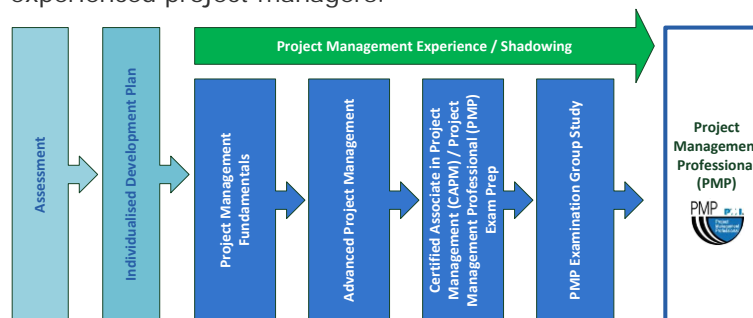

This is one of the most prestigious and internationally sought-after certification in project management.

Program Aim

The primary aim of this program is to help participants acquire and practice project management principles and best practices.

The program also aims at providing candidates with the required skills to qualify for the Project Management Institute (PMI®) certification exams (Certified Associate in Project Management CAPM® and Project Management Professional PMP®) based on the latest PMBOK® Fourth Edition.

Candidates completing the program will, not only be PMP® certified within 3 years, but will also be qualified and experienced project managers.

Objectives

This program is designed to help participants:

- Understand project management principles and techniques, and apply them to the day-to-day management of projects.
- Obtain the required professional experience prerequisites to be eligible to take the Project Management Professional (PMP®) certification examination.
- Receive the training (35 contact hours) required by PMI® to be eligible to sit the PMP® certification examination.

The roadmap to achieve PMP® Certification

This program will be delivered in three phases, but some candidates may not need to start from the first phase.

Candidates can enter the program in the phase that matches their project management experience and knowledge.

The three phases of the program are:

Phase 1: Certified Associate in Project Management (CAPM®) certification.

Phase 2: Practical shadowing of Project Manager.

Phase 3: Project Management Professional (PMP®) certification.

Target Audience

This programme is aimed at individuals who are interested in solidifying their project management experience with Project Management Professional (PMP®) certification.

The programme also caters for individuals who have an interest in Project Management and would like to pursue a career in this area.

Highlights

This program is designed to enable candidates to pursue a career in project management supported by an internationally recognized certification in project management (PMP®) offered by the Project Management Institute (PMI®).

Maximum duration of the program is 3 years (for candidates with no experience in project management).

The program caters for candidates of varying levels of experience and knowledge in project management and will enable them to obtain PMP® certification within the timeframe relevant to their qualification and experience.

Registration
