

Biography

Sammy Bazzi

Senior Training Specialist
The Injazat Institute (Ti²)

Sammy Bazzi is an experienced Training & Development Specialist with more than 9 years of experience in training consultancy, design, development and delivery for a number of leading organizations.

He is currently the Senior Training Specialist of The Injazat Institute (Ti²), a business-oriented career development initiative of Injazat Data Systems, the leading IT and business process managed services provider in the UAE and the Middle East. He is responsible for the design, development and overall management of strategic training programs covering both IT and Leadership. His focus over the last 18 months has been to develop and rollout Career Development Plans for UAE Nationals in Injazat and project manage training initiatives for clients and internal departments.

His previous role was to manage the training and operation function for a leading IT Training Centre in the UAE. The focus was to ensure that training programs were delivered that exceeded client expectations.

Sammy holds a degree in Management Information Systems through and is currently pursuing both Project Management certification and Certificate IV in Training and Assessment from a leading Australian Institution.
